Skills

- C#, Asp.net, Javascript, Node.js
- Angular, React, Html, CSS, Bootstrap
- MSSQL, Postgres
- Azure, AWS, Docker
- Python and Java familiarity
- Visual Studio Code, Office 365, Windows, Ubuntu, MacOS

Projects

Inventory Management Project
https://inventory.tonymdesigns.com/dashboard

Inventory management system that will keep track of inventory within the lab. A unique QR code will be generated for each item in the lab containing meta data such as quantity, expiration date. Background services will notify users if an item is low or expired.

CrowdSoucing Project
https://crowdsourcing.tonymdesigns.com

Created a crowd-sourcing site leveraging Google Maps Api that allowed users to look up and and post local food truck locations

Education

Trilogy FullStack Bootcamp
January 2019 -August 2019, St.Paul, MN

University of Minnesota / Biology
September 2008 - May 2012, Minneapolis

Experience

Hennepin Healthcare
Lab Assistant, January 2019 -January 2020 , St.Paul, MN

Trouble shoot laboratory specimen-login equipment by checking error logs to diagnose hardware problems

Stored and tracked all specimens by using management software, suggested new ways lab test directory could be updated
